If the Project involves modifications to any existing structure(s) or other man-made feature(s) on the Project site, the Professional shall also review all as-built and record drawings, plans and specifications of which Professional has been informed by Owner about and properly inspect, as is consistent with the level of professional skill and care required hereunder, the existing structure(s) and man-made feature(s) to identify existing deficiencies and ascertain the specific locations of pertinent structural components.

1.1.5 The Professional shall perform its services in conjunction, and coordination, with the services to be performed by the Construction Manager to be engaged by Owner.

1.1.6 The Professional shall immediately make additions, changes and corrections to any documents prepared by Professional necessitated by errors and omissions in the Professional's performance of its services.

1.1.7 The Professional shall furnish professional services in accordance with professional standards currently practiced by Professional firms on projects similar in size, complexity and cost to the Project.

1.1.8 The Professional shall participate in and cooperate with, design phase and construction phase commissioning (including peer review), validation, and other third-party quality assurance and quality control processes, if any.

ARTICLE 2 SCOPE OF PROFESSIONAL'S BASIC SERVICES

2.1 General

2.1.1 The Professional's Basic Services consist of those described in this Article 2 and as described on **Exhibit C**, the Schedule of Services and Consultants. The Professional shall be responsible for all services performed by the Professional's consultants and shall require that the work of its consultants complies with all of the requirements of this Agreement. Owner is an intended third party beneficiary of Professional's contracts with such consultants and the contracts between the Professional and such consultants shall so provide. Furthermore, the Professional's contracts with its consultants shall require that in the event of default under, or termination of, this Agreement, and upon request of Owner, the Professional's consultants will perform services for the Owner.

2.1.2 The Professional shall perform all services in accordance with requirements of governmental agencies having jurisdiction over the Project, the University of Florida Design Services Guide, Owner's policies and project management guides listed under "Forms & Standards" at www.facilities.ufl.edu, and any other guidelines described on **Exhibit D**. In addition, the Professional's design shall comply with applicable building codes, accessibility laws and regulations, University of Florida Design and Construction Standards, University of Florida Telecommunications Standards, and other standards of Owner in effect at the time of the design work. To the extent Owner's standards are higher than applicable legal requirements, such standards shall be met unless Professional obtains a variance from Owner in writing.

2.1.3 Design and construction drawings shall be developed using AutoCAD (latest UF-approved version).

2.1.4 During the design phases, Professional agrees to provide, as part of Basic Services, on-site program and budget verification, development and review workshops necessary or desirable to develop a design, acceptable to Owner and its user groups, which is within Owner's budget. Such workshop(s) will be conducted with the Construction Manager, representatives of Owner's user groups, and the University Review Committees with jurisdiction over the Project, and shall utilize the Charrette format. Without limitation of the foregoing, at the Concept Schematic Design, Advanced Schematic Design and Design Development phases, the Professional shall support and attend presentations and shall include drawings, models, renderings, animations, and other tools as necessary to illustrate and convey information on particulars of the design intent. This shall include site plans with building footprint, landscape and tree removal plans, building elevations, "fly-through" digitized renderings, and architectural details as needed. At such presentation the Professional shall also address all issues and concerns previously identified but not yet addressed by the Professional to the University Review Committees' satisfaction.

2.1.5 In accordance with Owner's policies and Design Services Guide, the Professional shall develop a Basis of Design document (BOD). The BOD shall be developed initially during the first phase of the design, updated during each subsequent design phase and finalized on or before Substantial Completion. The BOD shall include detail appropriate to each respective phase of the design.

2.1.6 The Professional shall assist the Owner in connection with the Owner's responsibility for filing documents required for the approval of governmental authorities having jurisdiction over the Project.

2.2 Pre-Design Phase (PD)

2.2.1 The Professional shall meet with the Owner to ascertain the requirements of the Project. The approved building program shall serve as the basic planning document for the development of plans and specifications.

2.2.2 The Professional shall provide a preliminary evaluation of the Owner's program, schedule and construction budget requirements, each in terms of the other, subject to the limitations set forth in Subparagraph 5.2.1.

2.2.3 After reviewing the Project requirements, the Professional shall advise the Owner of the tests and surveys described in Article 4 that should be conducted prior to development of plans and specifications.

2.2.4 The Professional shall review with the Owner alternative approaches to design and construction of the Project.

2.2.5 When the Professional makes submittals to the Owner and Construction Manager at the various phases of design as described in Sections 2.3 through 2.6 below, the Professional shall comply with the requirements for such submittals set forth on **Exhibit E**.

2.3 Concept Schematic Design (CSD)

2.3.1 Based on the approved program, schedule and construction budget requirements, the Professional shall prepare several alternative design solutions. The Professional shall present these alternatives to the Owner, making submittals of studies, consisting of sketches and initial concepts. After receiving the Owner's comments, the Professional shall prepare, for approval by the Owner, Conceptual Schematic Design Studies which shall represent one or more recommended solutions. The submittal shall consist of documents, including sketches, initial concepts, orientation, and relationships to existing and future programmed projects and a Construction Cost Estimate Report. The Professional shall also submit the same to the Construction Manager for review. On the basis of such review, the Construction Manager shall furnish a conceptual

estimate of Construction Cost. After working with the Construction Manager to reconcile the Construction Manager's estimate with the estimate submitted by the Professional, the Professional shall, if requested by the Owner, study, consider, initiate and/or implement cost savings proposals as provided in Subparagraph 5.2.2.

2.4 Advanced Schematic Design (ASD)

2.4.1 Based upon the approved Conceptual Schematic Design studies, the Professional shall prepare, for approval by the Owner, Advanced Schematic Design Documents consisting of drawings, 3-dimensional renderings and other documents illustrating the scale and relationship of Project components, energy conservation approach and building systems parameters. The Professional shall submit to the Owner and Construction Manager a preliminary estimate of Construction Cost based on current area, volume or other unit costs, and the Advanced Schematic Design Documents for review. On the basis of such review the Construction Manager shall furnish a Construction Cost Estimate Report. After working with the Construction Manager to reconcile the Construction Manager's estimate with the estimate submitted by the Professional, the Professional shall, if requested by Owner, study, consider, initiate, and/or implement cost savings proposals as provided in Subparagraph 5.2.2.

2.5 Design Development Phase

2.5.1 Based on the approved Schematic Design Documents and any adjustments authorized by the Owner in the program, schedule or construction budget, the Professional shall prepare, for approval by the Owner, Design Development Documents consisting of drawings, three dimensional renderings and other documents to fix and describe the size and character of the Project as to architectural, structural, mechanical, plumbing, fire protection and electrical systems, materials and such other elements as may be appropriate. The Professional shall submit the Design Development Documents, together with the Construction Cost Estimate Report to the Owner and Construction Manager for review. On the basis of such review, the Construction Manager shall furnish an estimate of Construction Cost. After working with the Construction Manager to reconcile the Construction Manager's estimate with the estimate submitted by the Professional, the Professional shall, if requested by the Owner, study, consider, initiate, and/or implement cost savings proposals as provided in Subparagraph 5.2.2.

2.5.2 If a life-cycle cost computer analysis is authorized by Owner under **Exhibit C** or by Additional Services Authorization, the necessary documentation will be submitted with the Design Development Documents and such submittals shall comply with **Exhibit E**. The Professional shall prepare data, make the input and run a life-cycle cost computer program analysis approved by the Owner. Before preparing the data, the Professional shall discuss the energy-saving schemes proposed for the Project with the Owner's project manager. When an agreement has been reached, the Professional shall document the approved energy-saving schemes and obtain the written concurrence of the Owner's project manager. The Professional shall make the input and run the computer program using the following economic factors:

- a). Discount rate = 7%;
- b). Operating & Maintenance cost escalation = 0%;
- c). Energy Replacement costs escalation = 1%;
- d). Project Life = 25 years.

2.6 Construction Documents Phase

2.6.1 Based on the approved Design Development Documents and any further adjustments in the scope or quality of the Project or in the construction budget authorized by the Owner, the Professional shall prepare and submit to Owner and Construction Manager Construction Documents consisting of Drawings and Specifications setting forth in detail the requirements for the construction of the Project. Construction Documents shall be provided to Owner and Construction Manager at the 60% stage and when 100%. In the event Owner elects to fast-track the design of certain portions of the Project, Professional shall only submit

100% Construction Documents for such fast-tracked portions (such portions being described on **Exhibit A** and hereinafter referred to as “Phase 1”), and 60% complete and 100% Construction Documents for the remainder of the Project (such portion hereinafter referred to as “Phase 2”). Any fees associated with fast-tracking Phase 1 of the Project are included in the fee schedule attached hereto.

2.6.2 The Professional shall submit its Construction Cost Estimate Reports to Owner at the same time as it submits 60% Construction Documents. Upon receipt of 60% Construction Documents, the Construction Manager shall provide its cost report to the Owner for review and comparison to the Professional’s Construction Cost Estimate Report. Upon receipt of the Owner’s approval of 60% Construction Documents, if any, the Professional shall prepare and submit 100% Construction Documents to the Owner and the Construction Manager and the Construction Manager shall submit its cost report to the Owner.

2.6.3 Upon Owner’s approval of 100% Construction Documents and the Construction Manager’s cost report, the Construction Manager will prepare an initial Guaranteed Maximum Price proposal based on such Construction Documents. The Professional shall resolve with the Owner any apparent discrepancy between the final estimate of Construction Cost and the scope of work and requirements of the Owner. The Professional shall assist the Owner in its negotiations with the Construction Manager in an effort to develop an acceptable Guaranteed Maximum Price. If the Owner does not accept the Construction Manager’s Guaranteed Maximum Price proposal because it exceeds Owner’s budget for the Project, the Professional shall revise the Construction Documents in a manner acceptable to Owner and Construction Manager, to bring the Guaranteed Maximum Price to an amount within Owner’s budget or greater amount, if approved by Owner, all in accordance with the process described in Subparagraph 5.2.2.

2.6.4 The Owner shall cause the Construction Manager to furnish to the Owner and the Professional a complete list of the assumptions utilized by the Construction Manager in the development of the initial Guaranteed Maximum Price proposal and the finally agreed Guaranteed Maximum Price with respect to (a) changes in the initial set of Construction Documents on which the proposed or agreed Guaranteed Maximum Price is based, and/or (b) Project components not fully described in such Construction Documents. The Professional shall review and analyze such assumptions, and shall submit a written analysis of them to the Owner, pointing out any that, in the Professional’s opinion, are inaccurate, inconsistent with the design intent of the Project or not in accordance with the generally accepted standards of professional practice. Upon resolution by the Owner, Construction Manager and Professional of the issues raised in such written analysis, the Professional shall complete or modify the Construction Documents as needed.

2.6.5 After the Guaranteed Maximum Price has been accepted by the Owner, the Professional shall incorporate into the Construction Documents any revisions which are necessary due to inaccurate assumptions made in the development of the Guaranteed Maximum Price.

2.6.6 For a threshold building, as defined in Chapter 553, Florida Statutes, a structural inspection plan shall be included in the Specifications.

2.7 Bidding or Negotiation Phase

2.7.1 The Professional shall attend the Construction Manager’s pre-bid meetings with potential subcontractors and be available to respond to questions and/or issue addenda regarding the Construction Documents.

2.7.2 The Professional shall submit to the Owner and Construction Manager a Corrected/Conformance Document Set incorporating all design review comments, revisions or suggestions elicited during development of the Guaranteed Maximum Price Proposal, pre-bid inquiries, and other modifications made after the 100% Construction Documents have been submitted to the Owner and the Construction Manager.

2.8 Construction Phase Administration of the Construction Contract

2.8.1 The Professional's responsibility to provide Basic Services for the construction phase under this Agreement commences with the Owner's formal, written acceptance of the Construction Manager's Guaranteed Maximum Price Proposal. Subject to Paragraph 9.2, such responsibility shall continue until final completion of the Project (which, in general, shall be the date when construction of the Project is completed and final payment is due to the Construction Manager).

2.8.2 The Professional shall carry out its Construction Administration services as set forth below and in the University of Florida Design Services Guide. To the extent the terms of this Agreement, the Design Services Guide, and the General Terms and Conditions of the Contract for Construction are inconsistent, the terms of this Agreement shall govern.

2.8.3 Duties, responsibilities and limitations of authority of the Professional shall not be restricted, modified or extended without written agreement of the Owner and Professional.

2.8.4 The Professional shall be a representative of, and shall advise and consult with, the Owner during construction until final payment to the Construction Manager is made. The Professional shall have authority to act on behalf of the Owner only to the extent provided in this Agreement.

2.8.5 The Professional shall attend regularly scheduled construction meetings at the Site and shall provide such representation as may be required to fulfill the intent and interpretation of the plans and specifications for the Project. In any event, the Professional shall visit the site the minimum number of times required on **Exhibit A**, or at more frequent intervals appropriate to the stage of construction, or as otherwise agreed by the Owner and Professional, in writing, to become familiar with the progress and quality of the Work completed and to determine if the Work is being performed in a manner indicating that the Work when completed will be in accordance with the Contract Documents. However, the Professional shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of on-site observations as an architect or as an engineer, the Professional shall keep the Owner informed of the progress and quality of the Work and shall endeavor to guard the Owner against defects and deficiencies in the Work.

2.8.6 The Professional shall not have control over, or charge of, and shall not be responsible for, construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Construction Manager's responsibility under the Construction Manager's Agreement. The Professional shall not be responsible for the Construction Manager's schedules or failure to carry out the Work in accordance with the Contract Documents. The Professional shall not have control over or charge of acts or omissions of the Construction Manager, Subcontractors, or their agents or employees, or of any other persons performing portions of the Work.

2.8.7 The Professional shall at all times have access to the Work wherever it is in preparation or progress.

2.8.8 Except as may otherwise be provided in the Contract Documents or when direct communications have been specially authorized, the Owner and Construction Manager shall communicate through the Professional. Communications by and with the Professional's consultants shall be through the Professional.

2.8.9 Based on the Professional's observations and evaluations of the Construction Manager's Applications for Payment, the Professional shall review and certify the amounts due the Construction Manager. The Professional's certification for payment shall constitute a representation to the Owner, based on the Professional's observations at the Project site and on the data comprising the Construction Manager's

Application for Payment, that the Work has progressed to the point indicated and that, to the best of the Professional's knowledge, information and belief, the quality of the Work is in accordance with the Contract Documents. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to minor deviations from the Contract Documents correctable prior to completion and to specific qualifications expressed by the Professional. The issuance of a Certificate for Payment shall further constitute a representation that the Construction Manager is entitled to payment in the amount certified.

2.8.10 The Professional shall reject Work which does not conform to the Contract Documents. Whenever the Professional considers it necessary or advisable for implementation of the intent of the Contract Documents, the Professional will have authority to require additional inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not such Work is fabricated, installed or completed. However, neither this authority of the Professional nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Professional to the Construction Manager, Subcontractors, material and equipment suppliers, their agents or employees or other persons performing portions of the Work.

2.8.11 The Professional shall review, approve, reject or take other appropriate action upon Construction Manager's inquiries and submittals, such as shop drawings, product data and samples. The Professional shall not approve any such submittals unless such submittals conform with (i) the Project program and design concept; (ii) the Construction Documents; (iii) the Owner's total budgeted Construction Cost; (iv) the University of Florida Design and Construction Standards; and (v) governing codes and authorities having jurisdiction. In the event the University of Florida Design and Construction Standards exceed applicable legal requirements, those University of Florida standards shall govern. The Professional's review shall be completed so that all Work can be performed without delay and all products or materials may be ordered or fabricated with sufficient time to meet the Project schedule.

2.8.12 The Professional shall prepare Change Orders, with supporting documentation and data, if the Professional determines the same is necessary for the Owner's approval and execution in accordance with the Contract Documents.

2.8.13 The Professional shall conduct inspections consistent with the level of professional skill and care required hereunder to determine the dates of Substantial Completion and Final Completion, shall receive and forward to the Owner for the Owner's review and records, written warranties and related documents required by the Contract Documents and assembled by the Construction Manager, and shall issue a final Certificate for Payment upon compliance by the Construction Manager with the requirements of the Contract Documents.

2.8.14 The Professional shall interpret and decide matters concerning performance of the Owner and Construction Manager under the requirements of the Contract Documents on written request of either the Owner or Construction Manager. The Professional's response to such request shall be made within 15 (fifteen) calendar days of receipt of such a request.

2.8.15 Interpretations and decisions of the Professional shall be consistent with the intent of, and reasonably inferable from, the Contract Documents and shall be in writing or in the form of drawings. When making such interpretations and initial decisions, the Professional shall endeavor to secure faithful performance by both Owner and Construction Manager and shall not show partiality to either.

2.8.16 The Professional's decisions on matters relating to aesthetic effect shall be final if consistent with the intent expressed in the Contract Documents, and if concurred with by the Owner.

2.8.17 The Professional shall prepare “As-Built” or record drawings at Project completion in accordance with the requirements set forth on **Exhibit E**. These drawings shall include changes made to the Project by Change Orders, Addenda to the Construction Documents, Architect’s Supplemental Information, field orders, field reports, Requests For Information, shop drawings, other directives and submittals and information provided by the Construction Manager.

2.8.18 The Professional shall work with Owner to pursue Owner’s goal, if any, of a Leadership in Energy and Environmental Design (LEED) certification for the Project, at the level set forth on **Exhibit A**.

2.8.19 The Professional shall perform all of its required services relating to Substantial Completion and Final Completion in accordance with University of Florida policies and procedures.

2.9 Post Occupancy Phase

2.9.1 The Professional shall perform all of its required services relating to final completion of construction deliverables in accordance with the University of Florida Design Services Guide.

2.9.2 The Professional shall respond to Owner’s requests to review design and construction issues during the construction warranty period; coordinate and participate in the end of the warranty period inspection in accordance with the University of Florida Design Services Guide; and produce a summary report documenting deficiencies, problems, or other outstanding items.

ARTICLE 3 ADDITIONAL SERVICES

3.1 General

3.1.1 If the services described in this Article 3 are not specifically included in Basic Services or reasonably inferable therefrom, they shall be paid for by the Owner as provided in this Agreement, in addition to the compensation for Basic Services. The Additional Services shall be performed only if authorized in writing by the Owner prior to their performance.

3.1.2 For Additional Services being provided by consultants not included on the original Project Team, which require no work on the part of the Professional other than administering the work thereof (i.e., securing the services, approving the work, and invoicing on behalf of the consultant), the Professional may request a mark-up not to exceed six percent (6%) on the consultant's fee to cover the Professional’s administrative costs. This mark-up will be based on the complexity and time spent.

3.1.3 For Additional Services described in this Article 3, a lump sum or not-to-exceed amount which is satisfactory to both parties shall be negotiated on each occasion of activating a specific additional services authorization. The Professional’s staff costs associated therewith shall be based on the hourly rates set forth on **Exhibit F**.

3.1.4 If Owner has determined that Owner requires certain services which are traditionally considered Additional Services for the purpose of calculating the Professional’s fees, such services are described on **Exhibit C** and compensation for such services is included in the schedule set forth on **Exhibit G**. For purposes of this Agreement, such services constitute Basic Services.

3.2.24 Providing services relating to LEED certification, if such services are in addition to services being provided under Article II and are required solely for the LEED certification.

3.2.25 Providing any other services not otherwise included in this Agreement.

Notwithstanding anything to the contrary herein, Professional shall not be entitled to additional design fees if the same are necessitated by the fault of Professional.

ARTICLE 4 OWNER'S RESPONSIBILITIES

4.1 The Owner shall provide full information regarding requirements for the Project.

4.2 The Owner shall establish and update an overall budget for the Project, including the Construction Cost, the Owner's other costs and reasonable contingencies related to all of these costs.

4.3 The Owner shall designate a representative authorized to act on the Owner's behalf with respect to the Project. The Owner or such authorized representative shall render decisions in a timely manner pertaining to documents submitted by the Professional in order to avoid unreasonable delay in the orderly and sequential progress of the Professional's services.

4.4 The Owner shall review and approve or take other appropriate action on all work submittals of the Professional within the timeframes set forth in **Exhibit B**.

4.5 If required, the Owner shall furnish, or direct the Professional to obtain at the Owner's expense, surveys describing physical characteristics, legal limitations and utility locations for the Project site, and a written legal description of the Project site. The surveys and legal information shall include, as applicable, grades and lines of streets, alleys, pavements and adjoining property and structures; adjacent drainage; rights-of-way, restrictions, easements, encroachments, zoning, deed restrictions, boundaries and contours of the site; locations, dimensions and necessary data pertaining to existing buildings, other improvements and trees; and information concerning available utility services and lines, both public and private, above and below grade, including inverts and depths.

4.6 If required, the Owner shall furnish, or direct the Professional to obtain at the Owner's expense, the services of geotechnical engineers as necessary for the Project. Such services may include but are not limited to test borings, test pits, sub-surface imaging, determinations of soil bearing values, percolation tests, evaluations of hazardous materials, ground corrosion and resistivity tests, including necessary operations for anticipating subsoil conditions, with reports and appropriate Professional recommendations.

4.7 The Owner shall pay for structural, mechanical, chemical, air and water pollution tests; tests for Hazardous Substances; and, other laboratory and environmental tests, inspections and reports required by law or the Contract Documents.

4.8 The Owner shall furnish all legal, accounting and insurance counseling services as may be required by the Owner for the Project, including auditing services the Owner may require to verify the Construction Manager's Applications for Payment or to ascertain how, or for what purposes, the Construction Manager has used the money paid by or on behalf of the Owner.

4.9 Review of Professional's documents by the Owner shall be solely for the purpose of determining whether such documents are generally consistent with the Owner's intent and such review shall not relieve the Professional of any of its responsibilities. Notwithstanding the foregoing, prompt written notice shall be given by the Owner to the Professional if the Owner becomes aware of any fault or defect in the Project or non-conformance with the Contract Documents.

ARTICLE 5 CONSTRUCTION COST

5.1 Definition

5.1.1 The Construction Cost shall be the total cost or estimated cost to the Owner of all elements of the Project designed or specified by the Professional.

5.1.2 The Construction Cost shall include the cost at current market rates of labor and materials furnished by the Owner and Construction Manager and equipment designed, specified, selected or specially provided for, by the Professional, including connections to utilities, plus a reasonable allowance for the Construction Manager's overhead and profit.

5.1.3 The Construction Cost does not include the compensation of the Professional and Professional's consultants, Owner's consultants, the costs of the land, rights-of-way, fixtures, furnishings and equipment and contingencies or other costs which are the responsibility of the Owner as provided in Article 4. For this Project, Construction Costs shall not exceed the amount set forth on **Exhibit A**.

5.2 Responsibility for Construction Cost

5.2.1 Evaluations of the Owner's Project budget, preliminary estimates of Construction Cost and detailed estimates of Construction Cost, if any, prepared by the Professional, represent the Professional's best judgment as a design professional familiar with the construction industry. It is also recognized, however, that neither the Professional nor the Owner has control over the cost of labor, materials or equipment, over the Construction Manager's methods of determining bid prices, or over competitive bidding, market or negotiating conditions. Accordingly, the Professional cannot and does not warrant or represent that bids or negotiated prices will not vary from the Owner's Project budget or from any estimate of Construction Cost or evaluation prepared or agreed to by the Professional.

5.2.2 Construction cost estimating shall be the responsibility of the Construction Manager. The Professional shall furnish drawings and specifications to the Construction Manager as set forth in Article 2 above, on the basis of which the Construction Manager shall prepare detailed estimates of Construction Cost and, at the time identified in Article 2, a proposed Guaranteed Maximum Price. The Professional shall also furnish Construction Cost Estimate Reports as set forth in Article 2. The Professional and Construction Manager shall work together to reconcile any material differences in their respective estimates. Drawings and specifications produced by the Professional shall, except as otherwise authorized or directed by the Owner, be consistent with or reasonably inferable from design documents upon which previously reconciled cost estimates are based. The Professional shall study and consider cost saving proposals made by the Construction Manager, shall itself initiate such proposals when necessary and appropriate, and, at the Owner's written request, shall incorporate such proposals into the Drawings and specifications provided they are consistent with the design intent of the Project and within generally accepted standards of professional practice. Such study, consideration and incorporation shall be a Basic Service.

ARTICLE 6 USE OF PROFESSIONAL'S DRAWINGS, SPECIFICATIONS AND OTHER DOCUMENTS

6.1 The Drawings, specifications and other documents prepared by the Professional for this Project are instruments of the Professional's service for use solely with respect to this Project, except as may be expressly permitted herein. The Professional shall be deemed the author of these documents and shall retain all common law, statutory and other reserved rights, including the copyright. The Owner shall be permitted to retain copies, including electronic format and reproducible copies, of the Professional's Drawings, specifications and other documents and may use the same, without compensation to the Professional, as may be necessary or desirable in the operation, maintenance, construction and renovation of the Project and the remainder of Owner's campus, including, without limitation, additions or renovations to this Project and submittals or distribution of the same to meet official regulatory requirements or other similar requirements, provided in no event may the Owner use the Professional's Drawings, specifications, or other documents for the construction of a new facility unless agreed to in writing by the Professional and as otherwise permitted by Florida law.

6.2 The Professional shall have the right to include representations of the design of the Project, including photographs of the exterior and interior, among the Professional's promotional and Professional materials. ARTICLE 8 TERMINATION OR SUSPENSION

8.1 If the Professional defaults by failing to substantially perform, in accordance with the terms of this Agreement, as reasonably determined by Owner, the Owner may give written notice to the Professional (i) terminating this Agreement effective seven (7) calendar days from the date of notice; or (ii) setting forth the nature of the default and requesting the Professional initiate cure within seven (7) calendar days from the date of notice. At any time thereafter, if the Professional fails to initiate cure upon the request of the Owner and continue such cure until complete, the Owner may give notice to the Professional of immediate termination. If the Owner terminates this Agreement pursuant to this paragraph, and it is subsequently determined by a court of competent jurisdiction that the Professional was not in default, then in such event said termination shall be deemed a termination for convenience as set forth in Paragraph 8.3.

8.2 If the Owner defaults by failing to substantially perform in accordance with the terms of this Agreement, the Professional shall give written notice the Owner setting forth the nature of the default and requesting cure within seven (7) calendar days from the date of notice. If the Owner fails to cure within seven (7) calendar days from the date of notice may give notice to the Owner of immediate termination.

8.3 The Owner may at any time give written notice to the Professional terminating this Agreement or suspending the Project, in whole or in part, for the Owner's convenience and without cause. 8.4 If the Agreement is terminated by the Owner pursuant to Paragraph 8.1, no further payment shall be made to the Professional until completion of the Project. At such time, the Professional's compensation shall, at Owner's option, be calculated; (i) on the basis of services actually performed and expenses actually incurred prior to the effective termination date, or (ii) on the basis of the payment terms set forth elsewhere herein. In either case, the Professional's compensation shall be reduced by all costs and damages incurred by Owner as a result of the default of Professional. If the Agreement is (i) terminated by the Professional pursuant to Paragraph 8.2; (ii) terminated by the Owner pursuant to Paragraph 8.3; or (iii) suspended more than ninety (90) days by the Owner pursuant to Paragraph 8.3, the Professional's compensation shall be calculated on the basis of services actually performed and expenses actually incurred prior to the effective termination or suspension date and reasonable costs associated with the termination or suspension.
